

Not an early morning person?

Most dive centers in Pattaya require you to fit in with their plans and schedules - and that means getting up early or a full day at the islands. Well don't despair. We at Real Divers have the solution.

One way to maximise your fun is to get to Pattaya's offshore islands without wasting time. So go by speedboat, it will halve the time spent on traveling by larger boats.

Then it's up to you. We'll send along a Padi professional diver to provide supervision and act as a guide to take you to the best spots.

We'll provide lunch on the beach or on the boat at one of the Pattaya islands. Then we'll follow your plans for the day and finish by taking you back to your hotel. Prices will be based on the activities you want and the number of people in your group. Equipment, lunch and soft drinks are included and beer will be available for non divers on the trip.

In order to ensure that we tailor make your trip to meet your requirements we'd like to sit down with you and draw up a schedule. For your safety and enjoyment your trips will be subject to sea and weather conditions.

Introducing Real Divers - a family run dive shop

Brothers Peter and Neil Chandler emigrated from England to Thailand to start a new lifestyle by qualifying as Padi Scuba instructors – with their Dad Dave as their instructor.

Their ambition was to start their own dive school. But before launching Real Divers in 2003 they decided to work for a couple of years in the industry in order to gain all-round experience as instructors and equally importantly, to learn the business from bottom up.

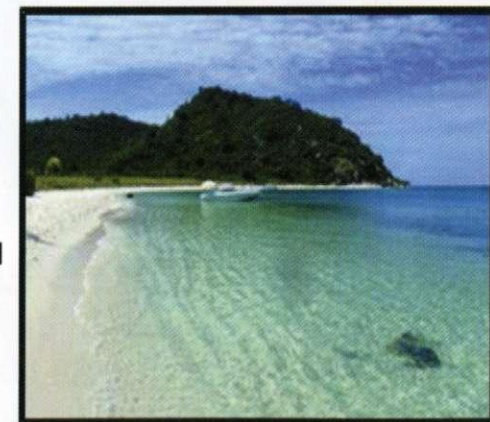

"We quickly realised what a good decision we had made when we started to learn the do's and don'ts of running a dive school" said Peter.

Between them during this apprenticeship they logged 9,000 dives locally and trained more than a thousand students at all levels making them two of the most experienced instructors in Pattaya. "Come out for a day's diving and you'll find out why we decided to name our business Real Divers," says Neil.

The second location is Samae San a small fishing village south of Pattaya. The diving is often better than in Pattaya and a major draw to Samae San is that its off the tourist track and you rarely see other divers.

Hin Chalam is the premier dive site but is a bit further offshore and needs good sea conditions so it doesn't get dived regularly except by Real Divers customers – who know the conditions. It's a great dive and the corals are pristine.

PATTAYA SHIPWRECKS

Ever thought about diving but never knew where to start?

Here's how your day will go. Enjoy the boat trip to the nearby islands. On the way we'll explain the things you need to know and how the equipment works so that you can breathe easily and have fun under water. At the island we start in shallow water where we will show you the basics of scuba so you can have fun on the dive.

After this we go for the an exciting coral reef dive .
If you really enjoyed this course it can count towards the first certification level, the PADI Open water course. Just ask your instructor for more details.
Real Divers teach all PADI courses from beginner to Instructor levels.
